7. Restrictions

Please read carefully this point and be aware of the strict noise regulation applied in Switzerland. We thank you in advance for your good collaboration on this.

*The Swiss Law limits the power amplification where the audience is the most exposed. **The limit is 100 dBLAeq measured during the show.***

The person responsible for those measurements as well as the sound engineer will insure that this law is duly respected. The sound level will be measured during all shows with the help of a soundmeter, calculated on a basis of 60 minutes. 2

The Artist and his staff, including his sound engineer, shall respect this law.

Also please note that due to neighbors inhabiting the building, **concerts MUST stop at 10 p.m..**
